

EU Natural

---

Terpene Belt Inc. asserts that, to the best of our knowledge, Fresh Never Frozen® Essential Oil is compliant with the term EU Natural as defined in Regulation EC No. 1334/2008 as it is 100% sourced from freshly harvested hemp plants that were steam distilled using only water and subsequently fractionated or blended to perfection. In this process, the exact enantiomeric composition of the vast amount of different compounds that the natural flavoring preparation contains is not altered from the composition in the originating hemp plants.

In fact, a more just and comprehensive definition for these essential oil products would be that they are native and unadulterated.

This statement is provided without the intention of preempting or superseding any regulatory requirements concerning the utilization and incorporation of Terpene Belt products into downstream finished products. Our commitment to maintaining high safety standards and compliance with applicable regulations remains unwavering.
