SECTION 4: FIRST AID MEASURES

#### 4.1 Description of first aid measures

| Inhalation                          | If breathing is difficult, remove victim to fresh air and keep at rest in a position |
|-------------------------------------|--|
|                                     | comfortable for breathing. Apply artificial respiration only if patient is not       |
|                                     | breathing but do not use mouth to mouth resuscitation.                               |
| Skin Contact                        | Remove contaminated clothing immediately and drench affected skin with plenty        |
|                                     | of water, then wash with soap and water. Wash the contaminated area of body          |
|                                     | with soap and fresh water. Take off immediately all contaminated clothing and        |
|                                     | wash it before reuse. If skin irritation occurs: Get medical advice/attention.       |
|                                     | Specific treatment (see Medical Advice on this label). Rinse skin with water.        |
|                                     | Take off immediately all contaminated clothing and wash it before reuse.             |
| Eye Contact                         | Rinse cautiously with water for several minutes. Remove contact lenses, if           |
|                                     | present and easy to do. Continue rinsing. If eye irritation persists: Get medical    |
|                                     | advice/attention.  |
| Ingestion                           | Unlikely route of exposure. Wash out mouth with water. If vomiting occurs turn       |
|                                     | patient on side. Never give anything by mouth to an unconscious person. Do           |
|                                     | NOT induce vomiting. Immediately call a POISON CENTER/doctor.                        |
| 4.2 Most important symptoms and eff | ects, both acute and delayed   |

May cause irritation. Allergic contact dermatitis.

#### 4.3 Indication of any immediate medical attention and special treatment needed

There is no specific antidote. Treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

#### 5.1 Extinguishing Media

| 0 0                                    |   |  |  |  |
|--|---|--|--|--|
| Suitable Extinguishing Media           | Use water spray, dry powder or carbon dioxide to extinguish.                        |  |  |  |
| Unsuitable Extinguishing Media         | Water jet spray   |  |  |  |
| 5.2 Special hazards arising from the   | substance or mixture  |  |  |  |
|  | Flammable liquid and vapor. Combustion or thermal decomposition will evolve         |  |  |  |
|  | toxic and irritant vapors. Decomposition products may include carbon oxides.        |  |  |  |
| 5.3 Advice for firefighters            |   |  |  |  |
|  | Fire fighters should wear complete protective clothing including self-contained     |  |  |  |
|  | breathing apparatus. If it is safe to do so, containers should be removed from fire |  |  |  |
|  | area because they are likely to rupture under fire conditions. Keep container(s)    |  |  |  |
|  | exposed to fire cool, by spraying with water. Static accumulating flammable         |  |  |  |
|  | liquid can become electrostatically charged even in bonded and grounded             |  |  |  |
|  | equipment. Sparks may ignite liquid and vapor. May cause flash fire or explosion.   |  |  |  |
| SECTION 6: ACCIDENTAL RELEASE MEASURES |   |  |  |  |

#### 6.1 Personal precautions, protective equipment and emergency procedures

Provide adequate ventilation. Use non-sparking ventilation systems, approved

### Safety Data Sheet

ACCORDING TO HAZARDOUS PRODUCTS REGULATIONS (HPR) Date of issue: 30/11/2020 Revision date: n/a Printed: 27/12/2022 explosion-proof equipment, and intrinsically safe electrical systems. Wear suitable protective clothing, gloves and eye/face protection. Remove all ignition sources. Wash contaminated clothing before reuse.

Avoid release to the environment. Spillages or uncontrolled discharges into watercourses must be alerted to the appropriate regulatory body.

#### 6.3 Methods and material for containment and cleaning up

Collect spillage. Adsorb spillages onto sand, earth or any suitable adsorbent material. Contain spillages with sand, earth or any suitable adsorbent material. Earth may be shovelled to contain spillage and to avoid contamination of sewers and watercourses.

SECTION 7: HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

|  | Wash hands thoroughly after handling. Wear protective gloves/eye protection.        |
|--|---|
|  | Avoid breathing mist/vapors/spray. Keep away from heat, hot surfaces, sparks,       |
|  | open flames and other ignition sources. No smoking. Keep container tightly          |
|  | closed. Use explosion proof electrical equipment. Use non-sparking tools. Take      |
|  | action to prevent static discharges. Ensure adequate ventilation. Keep in           |
|  | containers made of material similar to the original. Keep container tightly closed, |
|  | in a cool, well ventilated place.   |
| 7.2 Conditions for safe storage, inclu | iding any incompatibilities   |
|  | Store locked up. Store in a well-ventilated place. Keep cool.                       |
| Storage temperature                    | Ambient.  |
| Storage life                           | Stable under normal conditions.   |
