US Natural

---

Terpene Belt Inc. asserts that, to the best of our knowledge, Fresh Never Frozen® Essential Oil is compliant with the term US Natural as it is 100% produced from freshly harvested hemp plants that were steam distilled using only water and subsequently fractionated or blended to perfection.

In fact, a more just and comprehensive definition for the essential oil would be that it is native and unadulterated.

This statement is provided without the intention of preempting or superseding any regulatory requirements concerning the utilization and incorporation of Terpene Belt products into downstream finished products. Our commitment to maintaining high safety standards and compliance with applicable regulations remains unwavering.
